PERSONAL PROJECTS

Podcast: Ghosts-n-Heauxs — Producer and Editor

I was hired on to provide the equipment and editing skills needed to produce a professional sounding podcast with over 140 episodes to date.

Editor and interviewer for the largest metal music facebook page not backed by a magazine — All Things Metal

By far one of my favorite projects, started during my time in Australia, I began as an admin and took the initiative to reach out to record labels and tour managers to set up interviews. I would do the interview, get photos and video from the concerts, edit the videos and post them on a regular schedule. Learned alot about photography, video editing, Photoshop, Premiere, and journalism.

Woodworking — Personal Hobby

I have dabbled with this hobby many times throughout the years and it has given me the ability to work with my hands, calculate dimensions and angles, and practice patience to see the final outcome. Being able to see a stack of scrap wood turn into a beautiful finished project is always satisfying.
